May 19, 2005

Overview

- Remote Operations (“A Vision for Fermilab”)
- REMOP web page changes
- Advisory Committee (new members)
- Document database

Pier Oddone's talk on Monday

A vision for Fermilab

Presentation to the National Academy Panel

*EPP 2010: Elementary Particle Physics
In the 21st Century*

Pier Oddone, 5/16/05

Slide 23

LHC: delivering on the promise

- US LHC Accelerator R&D Program = LARP:
Fermilab + LBNL + BNL + SLAC
 - Commissioning: bring huge FNAL experience to LHC
 - Technology for upgrades: once again, luminosity will be key
- FNAL will have presence at CERN but also develop remote “operations” center at FNAL.
- Important step in the development of future “global” machines like the ILC

23

Slide 27

Summary for LHC and CMS

- Fermilab will be a vital partner to CERN in making the LHC and CMS a success
- Our ambition is to contribute with:
 - Presence at CERN as necessary
 - Remote control/monitoring/data centers at Fermilab for both accelerator and detector(s)
 - Technical support and critical mass: such that being at FNAL will be nearly “as good” as being at CERN for all our University partners!

27

Fermilab Remote Operations Center Committee

To be actively engaged in experiment and accelerator operations at the LHC, it is expected that remote operations capabilities will be needed to support physics analysis efforts in the US and to support effective integration of US accelerator scientists and engineers within the LHC commissioning effort.

Committee:

[Charge to the Committee from Fermilab Director M. Witherell](#)

[Committee Members](#) ([html](#), [xls](#))

[Advisory Committee](#) ([html](#), [xls](#))

Documents and Logs:

[Document Database](#) user name and password are required, please send mail to [Erik Gottschalk](#) for access.

[Electronic Logbook \(HEPBook\)](#) username and password are required, please send mail to [Erik Gottschalk](#) for access.

Meetings (location WH 8X unless specified otherwise):

[19 May 2005 at 13:30\(Central\)](#)

[12 May 2005 at 13:30\(Central\)](#)

[04 May 2005 at 14:00\(Central\)](#)

Instructions for meeting access:

For video connection:

Esnet: 001134988736

Hit # before and after entering the PIN.

PIN: send mail to [Erik Gottschalk](#) for access.

If you are unable to connect by video, then you can dial into the video conference by phone:

1) Dial: 1-510-883-7860

2) Enter: 001134988736 and hit #
